

Norwegian Ministry
of Local Government and Modernisation

Regulations for existing buildings in Norway

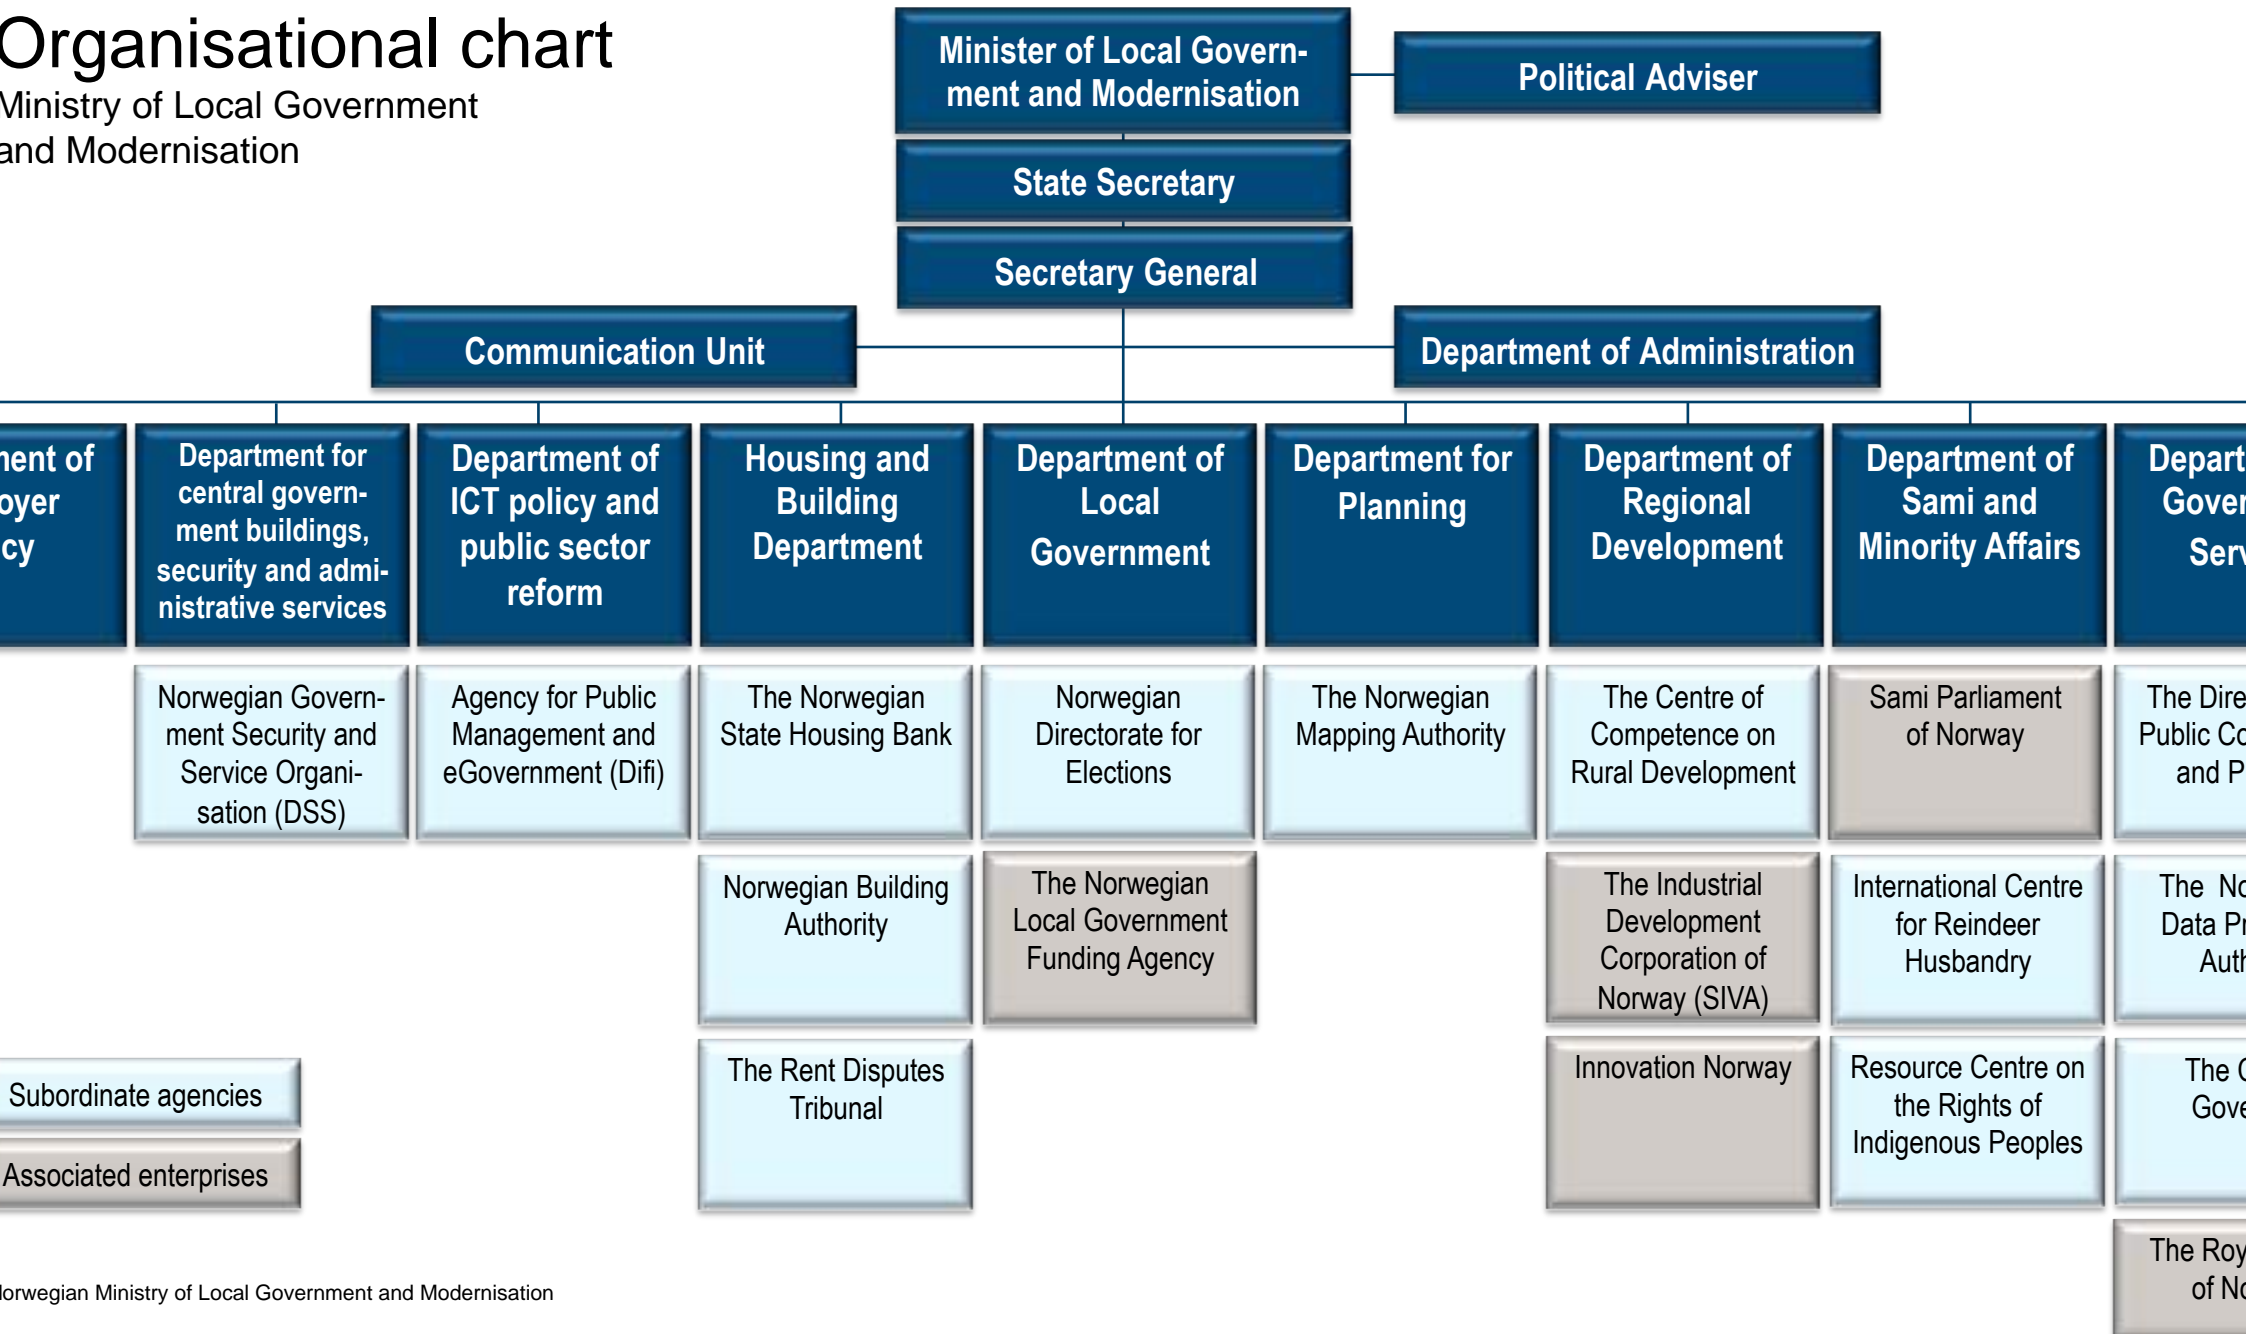

Senior adviser Sindre Samsing – Housing- and Building Department

IRCC Workshop, Oslo May 20, 2016

Organisational chart

Ministry of Local Government and Modernisation

Subordinate agencies
Associated enterprises

Ministry of Local Government and Modernisation and Norwegian building authority:

- Planning and building act
- Technical regulations

But also other authorities and regulations are relevant for existing buildings

Including: The Working Environment Act, Cultural heritage act, Local planning regulations, fire regulations and more

Planning and building act chapter 31- Requirements for existing structures

- 8 sections
- Section 31-2: Projects in existing structures must be seen in connection with section 20-1: projects that require an application and permission

Some challenges

- Difficult terminology in the regulations?
- Technical regulations too ambitious for existing buildings?
- EPBD II

- Thank you for your attention
